

REPRESENTATIVE DRIEHAUS ANNOUNCES FEDERAL TRADE ADJUSTMENT ASSISTANCE FOR WORKERS IN CINCINNATI

WASHINGTON, DC—Representative Steve Driehaus today announced that the Department of Labor (DOL) has approved Trade Adjustment Assistance (TAA) to the Berry Company of Cincinnati, Ohio. The TAA exists to help employees who have lost their jobs or have seen a significant amount of their wages cut.

“This assistance will be critical for local workers who have lost employment or seen their wages decline. The TAA will provide job training in other sectors and support for families struggling to make ends meet,” said Rep. Driehaus. “We need to help those hardest hit by this recession get back on their feet and to provide the skills and resources needed to compete in a difficult job market.”

The TAA is a program run by the DOL to provide assistance to workers who have lost their jobs or had significant cuts to wages. This assistance provides training in other job sectors, income support, and job search assistance.
